TEACHERMADE

Upgrade how your students work!

Introduction

On the following slides you will find 3 questions. You'll learn how to add a different item type to each.

1. A multiple choice question. This is probably the simplest item type to create.

2. A matching question. This is one of our favorites!

3. A diagram to be used with the hotspot item type. We absolutely love this one as it has applications across all subject areas.

Just follow the directions on the left of each slide to create the different item types on the right! SUPER SIMPLE!

Multiple Choice

Click and draw a box where you want the multiple choice bubbles to be located.

Select Multiple Choice from the pop-up INSERT menu.

Set # of answers to 4.

Choose the correct answer to set up auto-grading. You can also click on the Edit button to make formatting choices.

Machu Picchu is located in which South American Country?

Columbia

Argentina

Chile

Peru

Matching

Use the mouse to draw a box around the word Cat.

Select Matching from the pop-up INSERT menu.

Draw another box around the word Meow.

Connect the two boxes to create the answer key.
- While Meow is still red, hold the shift key and click on Cat.
- Make sure there's a dotted line between the pair and the boxes are green.

Match the animal with the sound it makes.

Animal	Sound
Cat	Tweet
Dog	Meow
Bird	Woof

# Hot Spot

Draw a square around a leaf..

Select <u>Hot Spot</u> from the pop-up INSERT menu.

Click on the blue Edit button to make scoring and formatting choices for each possible answer.

Repeat these steps for the roots and rest of the flower.

To join Hot Spots together into a group, hold down the Shift key and click on each hot spot.

Click on the part of the plant where photosynthesis takes place

How did you do?

TeacherMade makes adding interactions to slides extremely easy. Teachers can take back time and spend that time teaching!
